PROFESSIONAL EXPERIENCE

Full Stack developer

20 Cube Logistics | 2022 - Present

- Developed and maintained AngularJS frontend applications integrated with .NET Web API and SQL databases for efficient data handling.
- Collaborated with teams to translate business requirements into scalable and responsive web solutions.
- Implemented RESTful APIs using C# Web API to facilitate seamless communication between frontend and backend systems.
- Conducted thorough testing and debugging to ensure high-quality code and optimal performance of web applications.
- Contributed to continuous improvement initiatives, staying updated on emerging technologies and best practices to enhance development processes.
- Demonstrated a strong understanding of UI/UX design principles and best practices, resulting in streamlined workflows and enhanced user engagement.

Projects

QlikView Sale Tracker Project

- Conceptualized, designed, and implemented a comprehensive Sale Tracker solution using QlikView BI tool to analyze and visualize sales data effectively.
- Utilized QlikView scripting language to customize data models and optimize data loading processes for improved performance.
- Provided training and documentation to end-users, empowering them to navigate and extract valuable insights from the QlikView Sale Tracker application.
