ACADEMIC QUALIFICATIONS

Year	Degree/Certificate	Institute	CPI/%
2024 - Present	B. Tech	Jaypee Institute of Information Technology, Noida	8.4/10
2024	CBSE (XII)	Khaitan Public School, Sahibabad	94.8%
2022	CBSE (X)	Khaitan Public School, Sahibabad	98.8%

KEY PROJECTS

KrishiNect – Smart Multilingual Agriculture Web Platform

- Developed using **HTML, CSS, JavaScript**, enabling crop listing and farmer connectivity
- Built an output marketplace module using **JavaScript (DOM manipulation, event handling)** for direct farmer-to-buyer transactions (Ongoing)
- Designed dynamic dashboards with **JavaScript, JSON-based data structuring, and responsive UI design** for real-time price insights
- Implemented peer-to-peer communication interface using **state management and form handling using JavaScript**

SwasthSetu – Holistic Healthcare Platform

- Built a healthcare platform using a modular frontend architecture (**HTML, CSS, JavaScript**)
- Designed features for appointment scheduling and health tracking using **form handling, local storage, and structured data models**
- Built an age-adaptive mental wellness module (MannMitra) using **JavaScript** for mood tracking, journaling, and behavioural data capture (Ongoing)
- Structuring a unified dashboard with **dynamic UI rendering and data visualisation logic**

Workstyle Intelligence Platform – AI Productivity & Behavior Analysis System (Ongoing)

- Building a productivity analytics system using **Python and JavaScript**
- Tracking task completion, focus time, and activity trends using **structured data collection and local storage/session tracking**
- Generating insights using **Python-based data analysis and statistical methods**
- Exploring **machine learning models (scikit-learn)** for pattern recognition and recommendation systems

PulseCity – Civic Issue Reporting Platform (Ongoing)

- Built a civic-tech platform using **React/JS frontend and Flask backend integration**
- Designed a smart routing system using **keyword-based classification and priority scoring algorithms**
- Implementing a reward-based system using user activity tracking and state management
- Integrating with **geolocation APIs (Google Maps API)** for geo-tagged issue reporting
- Worked with structured data handling and event-driven logic for interactive systems

TECHNICAL SKILLS

- Programming Languages:** Python, C++, Java
- Web Technologies:** HTML, CSS, JavaScript, React
- Backend:** Flask
- Databases:** MySQL
- Tools:** Git, GitHub, VS Code, Figma

POSITIONS OF RESPONSIBILITY

Technical Volunteer, AI/ML Hub, IIIT

(Aug’25 - present)

- Spearheaded four tech workshops and two hackathons, boosting club participation by 35%.
- Directed a six-member team to deliver an AI/ML awareness series, engaging over 200 students.

ACHIEVEMENTS AND CERTIFICATIONS

- Secured 2nd place in All Girls Track at HackArena
- Ranked among Top 35 teams out of 1000+ in Code for Bharat hackathon
- Ranked among Top 82 teams in Innovate 3.0 hackathon
- Completed Deloitte Virtual Internship in Data Analytics
- Completed Agentic AI course under Microsoft Learn Student Ambassador Program
